We present to you something more important than just a property, we welcome you to a private and exclusive universe of 120 hectares where the passage of time stands still so that you can enjoy unforgettable moments.

The main house, built in 1798, despite being one of the most outstanding architectural works of Menorcan history, is dwarfed by the natural beauty that surrounds it on all four sides. From the inside, without even venturing outside, we feel like we are a part of nature, thanks to the large windows that flood us with light. We do not exaggerate if we affirm categorically that this property, which reaches down to one of the most beautiful beaches of Menorca, enjoys some of the most beautiful landscapes of the island. However, despite the respectful restoration work that took place in 2012, this unique property has all the necessary amenities to enjoy your stay to the fullest. It has 7 main bedrooms suites and a completely independent annex with a fantastic living room and a large bedroom suite.

Call us without obligation and tell us about your holiday project, we are certain that we can exceed your expectations.
