Beautiful house of 150 m² built on a plot of almost 600 m², where its location stands out in a very quiet street only frequented by neighbors and at the same time with quick and easy access from Ciutadella. The house consists of a spacious kitchen, living room, large porch, 3 bedrooms, a bathroom, and another room with the possibility of adding a toilet. In the garden, we find a removable pool and a storage room. An ideal house to live all year round or spend long periods in Menorca, which offers the possibility of expansion with prior municipal authorization.
