A working farm which extends over 49 hectares of land with abundant water. The house lies at the end of a cul de sac where vineyards line the quiet country lanes and the property has historical sites such as the ancient well, eras and the small stone guardian houses. The farmhouse is currently occupied by the farmer, but would benefit from restoration and could provide at least 6 bedrooms, together with the cowsheds and other outbuildings there are a total of 539 sq m built. Option to purchase the adjoining property.
