A unique case of a wonderful country estate with a house in good condition that is intact as it was 200 years ago (the interior is like a small museum). The property has more than 50 hectares of fertile land which has all the tranquility and privacy imaginable, and just a few minutes from emblematic unspoilt beaches. Apart from the charming main house, it also has agricultural buildings and facilities for making cheese which amounts to more than 1,000 m² of constructed area. It has mains electricity and two wells of its own.
