We present a spectacular newly-built designer house with sea views in the prestigious urbanization of Cala Llonga.

The property stands on one of the highest points in the area and enjoys privileged views of Mahón harbour.

The excellent finishings and the high-quality materials used stand out: from the natural slate exterior cladding to the trowelled concrete floors and exposed concrete ceilings, which accentuate the contemporary architectural style of the property.

The 3 bedrooms are distributed on the ground floor from where the master bedroom suite enjoys unbeatable views of the harbour.

The first floor is distributed over an open-plan space comprising the living room and kitchen, plus a terrace and infinity swimming pool.

This is undoubtedly a masterpiece of contemporary architecture.
