This is a great opportunity to acquire a restaurant on the north coast of Menorca, located in the Addaia urbanisation. The establishment is in a privileged position as it is just a few meters from the well-known Na Macaret beach.

On the ground floor there is a fully equipped professional kitchen that includes a stone oven, a large room for diners and a pleasant outdoor terrace with sea views.

On the first floor you access the house and it is distributed in two double rooms and a single room with a bathroom.

It is an ideal location with a familiar and endearing character, since it is usually frequented by local Menorcans from the area. The restaurant has a licence and has an easily accessible public car park.
